* CLEVELAND AREA CASE is defined as an individual who is classified as AIDS and was DIAGNOSED and LIVING in CUYAHOGA COUNTY at the time of diagnosis and is BELIEVED to have been infected in the GREATER CLEVELAND AREA.

The Cleveland Area cumulative data are from 1981 through the month of this report.

Ohio cumulative data as of Dec. 31, 2006 were obtained from the ODH HIV/AIDS Surveillance Unit. Ohio data reflect ages as of 12/31/2006.

Rate: Living with HIV/AIDS rate is the number of persons living with HIV/AIDS per 100,000 population calculated using 2000 census data for Ohio.

Rates for Cleveland Area cases are not calculated since CDPH receives most but all reported cases throughout Cuyahoga County.

Asterisk incidence rates are not calculated because census rate is not applicable to the respective category.

Dash or hyphen indicates no cases were reported for the given category.
